## FLEET MANAGEMENT IS OUR PASSION.

We understand that fleet solutions need to be flexible to suit our customers.

We can help manage your fleet to ensure a more effective operation, allowing you to focus on your business.

Whether you lease your vehicles through Agility Fleet, a third-party company or own your vehicles, our services can be tailored for you.

Our fully outsourced Fleet Management support service provides a comprehensive fleet solution tailored to your business needs. By allowing Agility Fleet to act as your fleet department managing, you have access to our knowledge and experience in all aspects of running your vehicles whilst making the most of our adaptable solutions

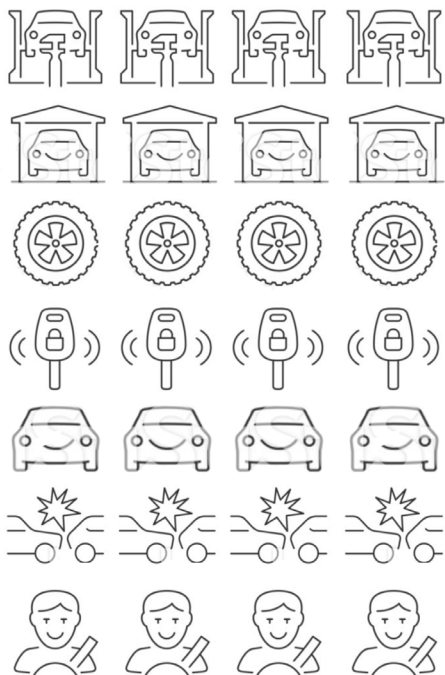

In addition to our fleet management programme, we also offer vehicle Service Contracts. This allows our customers who do not have any service, repair, maintenance or tyre cover to utilise our Repair Network Platform – helping you minimise costs and downtime whilst managing your vehicles more efficiently and effectively.

We also offer a pay as you go (PAYG) scheme for a monthly fee or a contracted solution based on a period of time and anticipated mileage for new vehicles with a set monthly payment. This is designed to reduce the administration hassle of managing the in-life of the fleet whilst protecting against unexpected costly repairs.

If you require a tailored solution for your business or would like to ascertain more information about our Fleet Management offering, please contact us to discuss your requirements in more detail.

We support the key elements of managing a fleet, so you don't have to.

Fleet Management can incorporate elements of the following key features.

- » Managing service bookings
- » Scheduling MOT's
- » Tyres maintenance & replacements
- » Vehicle service contracts
- » Windscreen Management
- » Accident Management
- » Grey Fleet/Personal Contract Hire

Regardless of your fleet size, we can offer an extensive range of bespoke fleet solutions. Agility prides itself on building relationship and working with our customers to guarantee that you only get you services you need at a cost that suits you.

We are committed to ensuring complete transparency with our customers.
